

Dear Valued Business Leader:

Beginning on January 1, 2024, The City of Stafford entered into an exclusive agreement with GFL Environmental. The agreement includes Solid Waste services provided to commercial, industrial, retail and manufacturing businesses within the City limits of Stafford, Texas. Those services include dumpster, roll-off, and compactor services. Any business within the City limits that requires solid waste collection services must contract those services through GFL Environmental as outlined in the current City Solid Waste and Recycling Ordinance. The GFL team is excited for the opportunity to bring world-class waste collection services to the businesses in the City of Stafford.

What to Expect

New containers will be delivered to businesses during the months of February & March. During this period, if you have a container from another vendor, you will need to schedule it to be removed with your current provider. GFL Environmental will replace it with a new GFL container. To help ensure a seamless transition, included is a copy of the City ordinance for you to provide to your current provider. GFL offers a full range of Front Load dumpsters and Open – Top (Roll-Off) containers.

Below are a few examples of the typical solid waste dumpsters that will be provided by GFL.

8 Yard Box

8 Yard Slant Box

4 Yard Box

THE CITY OF
STAFFORD

For questions regarding the delivery of your new dumpster and solid waste service please contact GFL Environmental at **(281) 368-8397** or gflcshouston@gflenv.com.

Recycling services are also available from GFL.

What to Expect: Monthly Billing and Invoices

You will receive monthly invoices for solid waste services from GFL Environmental and begin making payments directly to them.

If you would like to make any changes to dumpster size or collection frequency, please contact GFL Environmental at (281) 368-8397 or gflcshouston@gflenv.com.
